Dear Friend,

This is the time of year when graduate and undergraduate students across the School of Earth and Environmental Sciences (SEES) prepare for the annual EarthWeek, this year April 6-10. EarthWeek showcases University of Arizona research across SEES: Departments of Environmental Science, Hydrology and Atmospheric Sciences, and Geosciences, as well as the School of Natural Resources and the Environment, and the Laboratory for Tree Ring Research. While each unit has their own symposium (ours is ENViSion on April 8 and 9), we share a plenary oral session and a poster session, giving folks the opportunity to learn about work underway in our sibling departments. I encourage everyone to attend EarthWeek to learn about SEES research and support our students.

Meet the People

Jordan Camp (BS '20)
Discover senior Jordan Camp's (BS '20) "dream job" at the National Park Service.

Darya Anderson (BS '16)
Meet alumna Darya Anderson (BS '16), now a Juris Doctor candidate at the University of Arizona Law School.
